TO GET OFF AT BUFFALO

Kimokeo and Opu Will Challenge World and Emulate Webb at Niagara.

W. Maurice Tobin, or "King of the Midway," as he is sometimes called, who has for some time past been here in the interests of the Hawaiian Exhibition Company, which will show at the Pan-American Exposition to be held in Buffalo, N. Y., this summer, has completed the recruiting of his company and will take back to the States with him on the Ventura, which leaves on April 24, some of the leading singers and musicians of Honolulu and the other Islands.

Among those who will go are the Kamehameha Glee Club, made up of graduates from Kamehameha School. A number of mat-makers, fan-makers and hat-makers have also signed contracts and will give the American public object lessons in Hawaiian industries.

Two Hawaiian ladies, who are well known in Honolulu as soprano and alto vocalists, have also been engaged, as has David Nape, the celebrated composer and musician and Mekia, for a long time the leading flute player in the Hawaiian band. Mekia is an excellent piccolo soloist and made a tour of America a few years ago.

Mr. Tobin has decided to take with him Kimokeo and Opu, two of the best swimmers in the Islands. Kimokeo has beaten Dan Renner, the ex-amateur 100-yard swimmer of the world twice, and Opu has beaten Kimokeo three times. Mr. Tobin intends to have the men properly trained and to challenge the world's best short-distance swimmers on their behalf.

Opu will attempt to swim the rapids at Niagara. He was at the World's Fair and has seen the rapids and signified his willingness to make the attempt. Dan Renner says that with proper training the men should more than hold their own.

Several native chanters and umuke players will also make the trip and add the proper weirdness to the exhibition of the Burning Mountain of Hawaii.

To an Advertiser reporter yesterday Mr. Tobin said:

"I have been engaged while here almost entirely in the interests of the exhibition, but have tried to stimulate enough interest to have a representative Hawaiian exhibit sent to Buffalo. I find that no man will be sent, but that the prospects of a first-class exhibit being forwarded to St. Louis in 1903 are exceedingly good. I want to see Hawaii represented at that exposition as she should be."

"I am taking back with me forty people, of whom twenty-six are men, and I think, not speaking egotistically, that I have secured the best party that has ever left the Islands. Among them are W. J. Coelho, the eminent baritone, and C. H. Baker, late of the police department, who possesses a phenomenal bass voice."

"Honolulu was a great surprise to me. I didn't expect to find it such an up-to-date city and was astounded to run across automobiles, a police department equipped with the latest thing in call boxes, and 20-second turn-out fire system."

"The Volcano I consider to be the most wonderful sight on earth both on account of its stupendous grandeur and its awful depth. I have visited Niagara Falls, Yellowstone Park, the Grand Canyon of the Colorado and the Palisades of the Hudson, but the Volcano eclipses them all spectacularly."

"I am exceptionally pleased with the kindness and courtesy extended to me by every one with whom I have had dealings. Wherever I have been I have been received with the utmost cordiality and listened to with the utmost consideration."

"I have handled natives of nearly every country on earth during my twelve years of exposition life, but I must say that the native Hawaiians are the most interesting people, the sweetest singers and the best musicians of any of the dark-skinned races. I will go further and say that they are the sweetest singers in the world."

"I had heard stories of the prowess of the natives in swimming, but until I saw them I did not believe that a human being could get through the water as they can. I anticipate great results from Kimokeo and Opu when they meet America's best swimmers, which are the best on earth."

It is rumored around town that Ben Bruns will shortly leave for the States with a native quartet and a company of hula dancers who will work in connection with a stereopticon exhibition and tour the country.

Tourists and visitors should not fail to take a ride on the Pacific Heights Electric Railway. Unsurpassed view of ocean, mountain and valley, and the stretched-out city. Round trip, 10c.

On Wednesday, April 24, James F. Morgan will sell at auction on the premises of M. Reis, Queen street, near Richards, several wooden buildings.

TAROENA

IS THE FOOD THAT MAKES HAWAII FAMOUS. . .

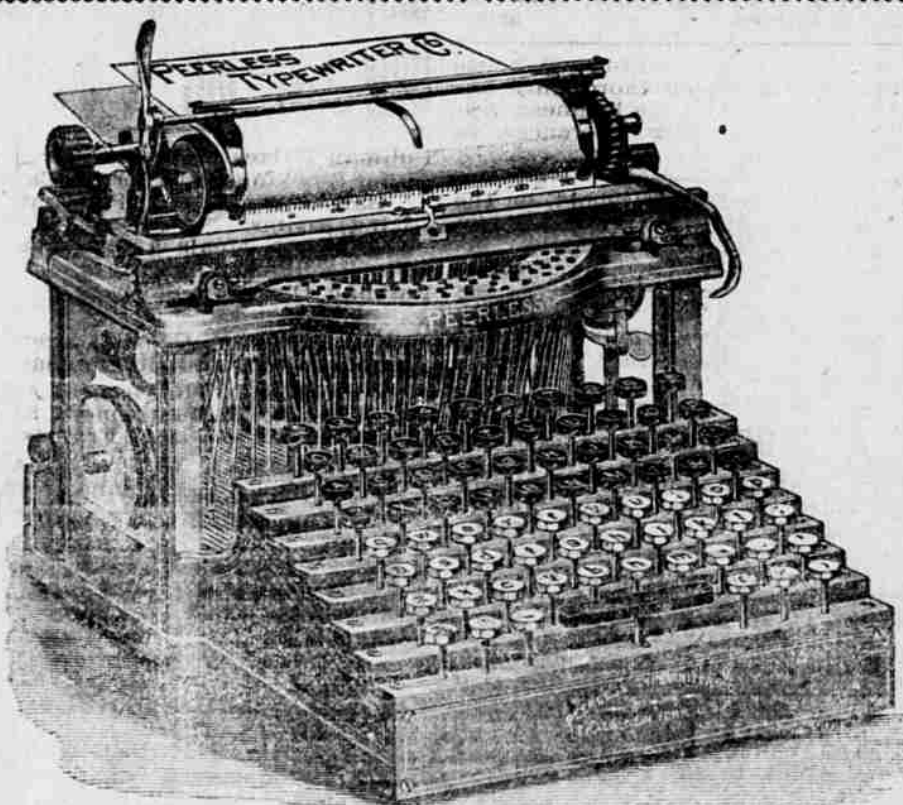

Tucked away in the grip of nearly every traveler is a package of TAROENA FOOD. He has learned to like poi and is taking TAROENA home to show "the folks" what poi really is. Many of them are taking it because of its valuable merit as a food for dyspepsia, having discovered its value from personal use.

TAROENA is the one food that will make thin people fat. It isn't quantity but quality of food that puts on flesh. TAROENA is medicine as well as food, for it tones up the stomach, the mineral salts, so valuable to the blood, are presented in a way to be readily taken up.

For those who travel by sea and suffer seasickness TAROENA will prove a boon. It "stays down" on the stomach when no other food will. It brings relief and strength and gets the stomach "settled" so that it will receive other food. There is no safer food for infants. TAROENA develops the whole child-body, brain and nerves. It makes puny children strong, robust and healthy. Endorsed by the medical profession everywhere.
